

L.Kaul One-Page Portfolio

1. Introduction

- A brief introduction to your website idea. State the goals of the project.
 - Create a portfolio site to showcase my projects that I work on in a professional manner.
- The values / benefits (tangible and intangible) this application can bring to a company/organization/end user.

2. Expected List of Features

- A brief list of features that you expect your website to support.
 - One page site with parallax scrolling with a gallery section to showcase projects
 - Dark website theme using darker tones and contrasting colors to make the website pop more.
 - Make the site mobile focused and include semantic markup
- Brief justifications for including these features.
 - Makes the site more visually appealing and keeps a more modern feel to the site

3. Market Survey

- Do a survey of the web to find about five websites similar to yours.
 - <https://www.pietrogregorini.com/portfolio/>
 - <https://tabs-spaces.nl/>
 - <https://www.luckybeard.com/>
 - <https://www.christopher-ware.com/>

- <https://benhowdle.im/>
- Briefly compare/contrast the features of these websites with your idea.
 - The styling of these sites are similar to my intended goal with darker colors and shapes and animations to help with the flow of the page

4. References

- Give references to any material / websites / books, et cetera, relevant to your website idea.
 - Background pattern shapes
 - Icons from Font awesome or similar sites
- Give the links to the websites relevant to your idea that you listed in the section above.
