# I.Kaul Portfolio Project Plans

1. Introduction

- This is a site to host my personal portfolio to show off the projects that I have worked on.
- A focus on a simple smart design that works well on both mobile and web.

2. User Interface Design and Prototype

-

- This is the basic wireframe structure of the beginning of the site.
- Has 3 main sections, Projects, About, And Contact.
- Projects section uses Codin from Codesmite.com's Hex Image layout to show off thumbnails of the projects.
- Light background of small hexagon shapes to tie in to the theme off the site.

Current image of the site showcasing colors & hex pattern

3. Navigation Structure

- Navigation of the one page site is very linear with a navbar at the top to jump around to the different sections

4. References

- Hexa theme by Codin @ Codesmite.com
